nation)(2023)

## 📁 PROJECTS

- Young India Ahmedabad**  
(Django)  
Developed a dual admin panel with forgot password functionality and various software solutions for Young India Ahmedabad. Implemented Djangobased full-stack functionalities, including authentication, user roles, and database management, ensuring smooth operations and automation.
- Skill Nation Visualization Project**  
(Power BI)  
A standalone data visualization project created entirely using Power BI Desktop, showcasing interactive dashboards and insights.
- n8n**  
Automation & Chatbot Projects  
Developed multiple n8n workflows to automate tasks such as sending email notifications and fetching data from APIs. Additionally, created a website chatbot to enhance user interaction and support, improving overall engagement.
