Summary

Python and Django Developer with **1+ years** of experience across **3 positions**, delivering **4 end-to-end projects** that span business workflow software, n8n automation, and a Retrieval-Augmented Generation (RAG) application. Recognized as **Employee of the Month** in Jul 2025. Strong in PostgreSQL, Application Programming Interface (API) integration, web scraping, and vector search with Qdrant and an on-schedule delivery record.

Technical Skills

Languages:	Python, JavaScript, Structured Query Language (SQL), HyperText Markup Language 5 (HTML5), Cascading Style Sheets 3 (CSS3), JavaScript Object Notation (JSON)
Frameworks:	Django, Django ORM, Django REST Framework (DRF), Bootstrap, LangChain, OpenAI API, n8n, RESTful APIs
Backend:	Backend Development, API Development, API Integration, Webhooks, Model-View-Template (MVT) Architecture, Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Authentication and Authorization
Databases:	PostgreSQL, SQLite, Qdrant, Query Optimization, Database Design, Database Schema Design, Vector Database
AI/Automation:	Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Low-Code Automation, Prompt Engineering, Embeddings, Semantic Search, AI Chatbots, Workflow Automation, Business Process Automation
Data:	Python Web Scraping, Data Extraction, Data Processing, Data Cleaning, Extract, Transform, Load (ETL), Document Processing, Power BI
Tools:	Git, GitHub, Linux, Postman, Third-Party API Integration, Scheduled Workflows, Cron Jobs, Version Control
Concepts:	Web Application Development, Create, Read, Update, Delete (CRUD), Role-Based Access Control (RBAC), Software Development Life Cycle (SDLC), Debugging, Performance Optimization

Work Experience

Junior Python Developer | *Mighty Ventures Business Solutions LLP, Ahmedabad, India* Jun 2025 – Present

- Developed **2 Django web applications** for business workflow management, serving **15+ internal users** and cutting manual data handling by approx. **30%.**
- Integrated **10+ n8n workflows** with third-party APIs to handle recurring business processes, saving approx. **12 staff hours** every week.
- Engineered Python web scraping scripts that collect **5,000+ records** per scheduled run, raising extraction accuracy to **98%.**
- Optimized PostgreSQL queries and table relationships across **2 applications**, lowering average page load time by approx. **25%.**

Python Developer Intern | *Mighty Ventures, Ahmedabad, India* Dec 2024 – May 2025

- Delivered **5 Django backend features** during a 6-month internship, supporting day-to-day operations for **10+ staff members.**
- Streamlined data processing with Python scripts, trimming repetitive manual entry by **20%** across **3 recurring workflows.**

Web Designing Intern | *Apex Software House, Bhavnagar, India* Jan 2023 – Feb 2023

- Designed **4 responsive web pages** with HTML, CSS, and Bootstrap during a 2-month internship, tested on **3 screen sizes.**

Projects

Nirmal PMS – Product Management System | *Django, Python, PostgreSQL, SQLite*

- Developed four Django modules covering job entry, cylinder entry, quotation, and proforma invoice, centralizing records for 1 operations team.
- Reduced manual record keeping by approx. **40%** using validated data-entry forms, full CRUD workflows, and **6 related database tables..**

n8n Automation and Chatbot Projects | *n8n, Python, APIs, AI*

- Automated lead generation and email marketing in **3 workflows**, sending **500+ scheduled emails** each month with no manual effort.
- Deployed **2 chatbot workflows** for customer support and Human Resources (HR) queries, resolving approx. **60%** of common questions without staff.

RAG-Based AI Application | *Python, LangChain, OpenAI, Qdrant*

- Architected a document question answering pipeline with LangChain, OpenAI, and Qdrant that replies in under 5 sec on 100+ page files.
- Generated embeddings for **500+ text chunks** and tuned similarity search to return the top **4 matching passages** per query.
- Boosted answer relevance by approx. **30%** on **20 test questions** by grounding OpenAI replies in retrieved document content.

Young India Ahmedabad – Admin Management System | *Django, Python, Database*

- Established login security and role permissions for 3 user levels in a Django administration system, protecting 100% of management pages.
- Built forgot-password recovery and database-driven features across 5 pages, cutting account reset requests to administrators by approx 50%.

Education

Master of Science in Information Technology 2023 – 2025
Institute of Science and Technology for Advanced Studies and Research (ISTAR), Vallabh Vidyanagar

Bachelor of Science in Information Technology 2020 – 2023
Shree Swaminarayan Gurukul College of Computer Science, Bhavnagar

Achievements & Certifications

- Python Programming Certification – IT Desk (2021)
- Complete Python Django Framework Bootcamp – Udemy
- **Employee of the Month** – Mighty Ventures (Jul 2025)
